

## Robot Design Skit

- Jigs - Nicole
- Claw - Sean
- Building knockover - Caroline
- Truck push/toy removal -
- Taking back toy - Sam
- Animals + Compost - Lakshmi
- Taking back compost - Charlotte
- Ramping up/down - Charis
- Fat man VS skinny boy\* - Lily
- Tools - Asha

\* This is not yet decided. For more info see fat man VS skinny boy on last page.

## - Jigs

Talk about:

- How jigs help set up
- What jigs do
- How useful they are

## - Claw

Talk about:

- How it was designed
- Where it is used

## - Building knockover

Talk about:

- Walk through the <sup>important parts of</sup> program\*\*
- If time, talk about the special knockover

## - Truck push / Toypull

- Walk through the important parts.\*\*
- If time talk about light sensor squaring

## - Taking back toy

- Walk through important parts\*\*

## - Animals + Compost

- Walk through the important parts. (Ramp up)\*\*

## - Taking back compost

- Walk through important parts.
- Talk about ending

## - Ramping up/down

- What it does
- How long it took to make
- How we have used it a lot.

## - Tools

- Gyro (Talk about)
- Color sensor (Talk about)
- Motors (You set it)

\*\* Note: Important

parts mean any special part that is complex or a part that took a lot of time on.

- Fat man VS skinny guy  
THIS IS UNDECIDED. IT COULD  
ALSO BE AN INTRO, OR ABOUT  
THE SIDES OF FAT MAN OR SOMETHING!
